

Mandatory Professional Licensure Disclosure
State University of New York
College of Agriculture and Technology at Cobleskill
July 1, 2020

New York State prides itself in the high quality of its licensed and certified professionals. For the protection of its citizens, each license and certificate has requirements that individuals must meet in order to be licensed or certified in New York State. State University of New York's ("SUNY") academic programs leading to licensure and/or certification are carefully designed to meet and exceed the State's requirements. This is a role that SUNY plays in protecting the public. Other states frequently have their own requirements, so if your goal is to practice in another state, this disclosure will help you check to see what that state requires.

In compliance with Federal Regulations, 34 CFR §668.43 (2019 Rule), and State Authorization Reciprocity Agreements (SARA) Manual version 19.2, State University of New York College of Agriculture and Technology at Cobleskill ("SUNY Cobleskill") provides the following disclosure related to the educational requirements for professional certification and/or licensure in Histotechnology.

This Disclosure is strictly limited to the SUNY Cobleskill's determination of whether its educational programs, specifically the following program(s): **Histotechnician, Associate in Applied Science (AAS)** - that if successfully completed, would be sufficient to meet the educational licensure and/or certification requirements in a State for the practice of histotechnology.¹ SUNY Cobleskill cannot provide verification of an individual's ability to meet licensure and/or certification requirements unrelated to its educational programming. Such individual determinations are made by state licensing boards, and are fact-specific determinations.

This disclosure does **not** provide any guarantee that any particular state licensure and/or certification entity will approve or deny your application. Furthermore, this disclosure does **not** account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made. **Enrolled students and prospective students are strongly encouraged to contact their State's licensure entity using the links provided to review all licensure and certification requirements imposed by their state(s) of choice.**

¹ This determination is based on the educational and curricular requirements of each state for licensure (i.e., excluding any special, temporary licensure that may be granted) and does **not** imply that other requirements for licensure do not exist or have been determined to have been met by this program or that any necessary approvals for clinical placements have been secured at the time of enrollment. Each student should verify their particular situation with their intended state's licensing entity.

SUNY Cobleskill has designed its educational program curriculum(s) for the following program: **Histotechnician, Associate in Applied Science (AAS)** - that if successfully completed **will be sufficient to meet** the licensure and certification requirements for an advanced practice license in the following states²:

STATE	Licensure Contact
New York	https://www.nsh.org/learn/certification

SUNY Cobleskill has designed educational program curriculum(s) for the following program: **Histotechnician, Associate in Applied Science (AAS)** and currently has made no determination that the curriculum is **insufficient to meet** the licensure and/or certification requirements for the advanced practice of medicine in any of the fifty (50) states and territories.

SUNY Cobleskill **cannot determine** whether the educational program curriculums for the following program: **Histotechnician, Associate in Applied Science (AAS)** - that if successfully completed, is sufficient to meet the licensure and/or certification requirements for advanced practice of Histotechnology in the following states³:

Alabama	Alaska	American Samoa	Arizona
Arkansas	California	Colorado	Connecticut
Delaware	District of Columbia	Florida	Georgia
Guam	Hawaii	Idaho	Illinois
Indiana	Iowa	Kansas	Kentucky
Louisiana	Maine	Maryland	Marshall Islands
Massachusetts	Michigan	Federated States of Micronesia	Minnesota
Mississippi	Missouri	Montana	Nebraska
Nevada	New Hampshire	New Jersey	New Mexico
North Carolina	North Dakota	Northern Mariana Islands	Ohio
Oklahoma	Oregon	Republic of Palau	Pennsylvania
Puerto Rico	Rhode Island	South Carolina	South Dakota
Tennessee	Texas	Utah	Vermont
Virginia	US Virgin Islands	Washington	West Virginia
Wisconsin	Wyoming		

² If the State does not regulate/license advanced practice of histotechnology. SUNY Cobleskill's program has been determined to be sufficient for these purposes.

³ This does not mean the educational program will not ultimately be approved by the state entity, or that certification and/or licensure could not result from attending this program.
