The Triple Placement Process
It's as Easy as ABC

Introduction
In order to insure equality in a triple room you have been assigned space in your triple room. When you move into your new home please adhere to this process. Your Resident Assistant will assist you with this process as needed.

The Process
As a student living in a triple, you have been assigned equal living space. When you checked in your residence hall you were assigned according to the lottery letter: A, B, or C you drew. It did not matter when you arrived as each letter carried with it an equal space assignment.

“A”
If you have been assigned space in a triple room as an “A” you have been assigned the following:

1. Top Bunk Bed
2. Single desk on right side of room
3. 1/3 of closet space
4. * Bottom 1/3 of drawers in each of the room dressers

“B”
If you have been assigned space in a triple room as a “B” you have been assigned the following:

1. Bottom Bunk Bed
2. Share desk on left side room with “C”
3. 1/3 closet space
4. * Top 2/3 of drawers of one dresser

“C”
If you have been assigned space in a triple room as a “C” you have been assigned the following:

1. Single Bed
2. Share desk on left side of room with "B"
3. 1/3 closet space
4. * Top 2/3 of drawers of dresser

*Dressers: It is our goal to have three dressers available in as many rooms as possible. If you room has three dresser each triple occupant is entitled to one dresser; they need not share dresser space.

Cooperation
The key to success in a triple room is cooperation and teamwork. Discuss your concerns and/or needs in an open and constructive manner. The other two students sharing the room will treat you with respect.
Resident Assistant
Sometime during the first day a Resident Assistant will stop in and offer his/her assistance with the “Triple Placement Process.” If there are disagreements or assignment of space has not been as easy as A, B, C, then make sure you ask the RA for assistance.
