“For this year’s SUNY Pride Conference, [SUNY Oneonta is] encouraging participants to reflect on ways they have needed to change the forms of advocacy throughout the changing times of current events. In doing so, we also encourage participants to consider how advocacy has many different forms, and all of which are valid – while understanding different forms are beneficial for intersectionality and how that effects beyond just the LGBTQIA+ community.

This conference is meant to highlight and celebrate LGBTQIA+ experiences through fostered dialogue across academic and/or practical experiences, disciplinary foci, and institutional perspectives, as well as provide support and resources to those that attend.” *Read more about the conference at the link provided above.*
